

OUR LADY OF GOOD COUNSEL S.S.S GAYAZA

HOLIDAY WORK TERM ONE, 2020

S.1 PHYSICS

1. Using a tape measure, take dimensions of your compound, sitting room, dining table and one table mat.
 - (a) Record the measurements you have taken for each.
 - (b) Calculate the area and perimeter for each.
 - (c) Calculate how many table mats can fit on the dining table.
2. Measure the circumference and height of any two sauce pans of different sizes at home. Calculate the radius, surface area and volume of each sauce pan.
