

**ST CHARLES LWANGA LWANGIRI  
SECONDARY SCHOOL  
END OF TERM 3 FINE ART 2025  
S.5 PAPER 1**

**INSTRUCTION TO CANDIDATES**

- **2 Hours are allowed**
- **This paper consists of two sections A and B.**
- **It has four items**
- **Answer one item from each section**
- **Any additional item answered will not be scored**
- **Drawings should be put where necessary.**

## Section A

### **Item 1**

A culture center has been constructed by the ministry of Tourism in Uganda .On the compound of the culture, a sculpture (figure A) was constructed .Whenever the tourists visit the cultural center they get amazed with the art work.

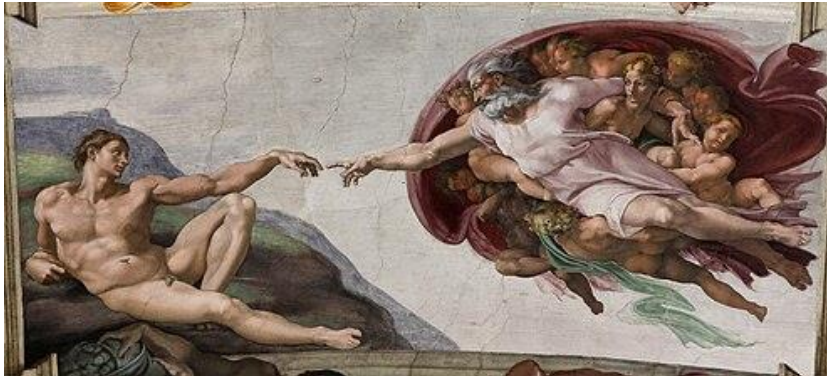

### **TASK**

As a student of Art History, describe the art work in figure A in terms of theme, materials, techniques, why it was made and its general characteristics to enable the tourists to appreciate it with ease.

**Item 2**

During the renaissance period, Artists used different Approaches to produce art works. Such art works appears in figures below.

Unfortunately, today, Artists produce works of no artistic qualities.

**Task**

Using the knowledge acquired, Advise Artists to produce better art works.

**SECTION B**

**Item 3**

John loves art, and in his environment, he collects and displays art pieces both two dimensions and three dimension which he gets from different corners of the country. One time she displayed pieces of art shown in figures below.

**Fig B**

Fig C

Fig D

Here received visitors and they asked him to explain to them how these art works are made and give some

of their functions. Unfortunately, John could not explain to his visitors since he had little knowledge about their production process and therefore he had to look for help from someone else probably a student of art and design.

#### Task

Assuming you have been selected as a learner of art and design, and that you have studied about craft production process, explain in writing to the visitors what is required and how to produce one of these art works and give their functions.

#### Item 4

The ministry of healthy visited Kasanda town last Friday for healthy monitoring and to check on the sanitation of the people in the town. Below is how the town was found that morning.

The mayor of the town was questioned about the condition of his town and he promised to find a solution for the problem. The minister then advised him to find ways of recycling the rubbish to make used full products.

The mayor surely had no idea of what to do and he had to look for an artist to help him on what can be made out of the rubbish.

Task

If the mayor wrote to the department of art at your school asking for help, prepare a write up advising the mayor about what kind of art work which could be produce out of such rubbish, giving him the proper procedure (step by step process), aiding tools and materials and the function of such an art work given.

**Happy New Year and Stay blessed**
