# SHALOM PRIMARY SCHOOL 

PRIMARY SEVEN TERM II

## MATHEMATICS REVISION SET III

SECTION A :( 40 marks)

1. Work out: 303

X 4
2. Simplify: $2 x+3 y+x+4 y$
3. Write 2012 in words.
4. Subtract: $101_{\mathrm{two}}$

$$
-11_{\mathrm{two}}
$$

5. Describe the shaded part in the Venn diagram below.

6. Find the number whose standard form is $5.2 \times 10^{2}$.
7. Express 0.2727 ... as a common fraction in its simplest form.

8 . Find the next number in the given sequence: $1,3,9,27$, $\qquad$
9. Write 12:30 am, in the 24 -hour clock.
10. Solve for $\mathrm{x}: 3-4 \mathrm{x}$ (flnite5)
11. Using a pencil and a pair of compasses, bisect the given line below.

12. Bwanika walked 0.5 km . What distance did she cover in metres.
13. The mean of $4,5,0, x$ and 7 is 5 , Find the value of $x$.
14. The cost of buying 400 Kenya shillings is Uganda sh. 8000 . How many Kenya shillings can Uganda sh. 24,000 buy?
15. In the diagram below, there are vertically opposite angles. Calculate the value of angle p .

16. The bearing of Entebbe from Kampala is $045^{\circ}$. What is the bearing of Kampala from Entebbe? ,"
17. Round off 43.392 to the nearest tenths. L
18. The area of a square chalkboard is $100 \mathrm{~cm}^{2}$. Find the length of one of its sides.
19. The probability that Owen will pass a Mathematics Mock exam is $\frac{2}{9}$ What is the probability that Owen will fail this paper?
20. The temperature of a day rose from $5^{\circ}$ to $25^{\circ}$. What was the rise in the temperature?

## SECTION B:

21. The size of each interior angle of a regular polygon is $144^{\circ}$.
(a) Find the size of each exterior angle.
(b) How many sides does the polygon have?
(c) What is the interior angle sum of the above regular polygon?
22. In a Mathematics test given to a class, the marks scored, frequency and total marks are shown in the table below.

| Marks scored | Frequency | Total Marks |
| :--- | :--- | :--- |
| 4 | 4 | 16 |
|  | 9 | 45 |
| 6 |  | 84 |
| 7 | 8 |  |
| 8 | 5 | 40 |

(a) Complete the table above.
(b) What was the modal mark?
(c) How many pupils were in the class?
(d) What was the average mark scored?
23. In a P. 7 class, 60 girls like netball (N), 35 girls like volleyball (V) only and 20 girls like both games while 5 girls like neither of the two games.
(a) Represent the above information on the Venn diagram given below.

(b) How many girls are there altogether in the P. 7 class?
(c) If one girl is selected at random, what is the probability of selecting a girl who likes only one game?
24. The diagram below shows a sports field of length 100 m with semicircular ends of diameter 70 m .

(a) Calculate the distance in metres a runner covers by running around the sports field.
(b) Find the area of the sports field.
25. Using a pencil, a ruler and a pair of compasses only, construct a regular hexagon of radius 4 cm .
26. Dan left town $K$ and travelled 16 km westwards to town $P$. He then travelled 12 Km northwards to town R .
(a) Draw a sketch to show Dan's movements.
(b) Using a scale of 1 cm to represent 4 Km , draw an accurate diagram showing Dan's journey.
(c) From your diagram, find the shortest distance from town R to town K .
27. At Good Hope Nabulagala primary school the price of uniform is as follows.

A shirt
A pair of shorts
A blouse
A skirt
sh. 5,000
sh. 10,000
sh. 7,500
sh. 12,500

A parent has 3 sons and 2 daughters in the school, how much money did he pay for full uniform for all his children?

The table shows a train journey Tororo to Lira.
UGANDA RAILWAYS

| DISTANCE IN <br> KM FROM <br> TORORO | STATION | DEPARTURE <br> TIME | ARRIVAL TIME |
| :--- | :--- | :--- | :--- |
| 0 | Tororo | 0800 hrs | $\ldots \ldots \ldots \ldots \ldots \ldots \ldots . . . . . . . . . . . . . . . . . . . . . . . . . . ~$ |
| 56 | Mbale | 0945 hrs | 0900 hrs |
| 120 | Kumi | 1120 hrs | 1100 hrs |
| 160 | Soroti | 1410 hrs | 1300 hrs |
| 270 | Lira | 1850 hrs | 1800 hrs |

(a) What is the arrival time in Lira on the 12-hour clock.
(b) What is the distance in kilometres from Kumi to Lira?
(c) For how long did the train stop at Kumi?
(d) Find the average speed of the train for the whole journey.
29. In a meeting of head teachers of primary schools, the ratio of male head teachers to that of female haed teachers was $3: 5$ respectively. If there were 300 female head teachers in the meeting:
(a) How many male head teachers were in the meeting?
(b) Find the total number of head teachers who attended the meeting.

30(a) In an Interview 2 marks are deducted for every wrong answer and 3 marks are awarded for every correct answer. What is the score mark for a candidate who gives 13 correct answers and 7 wrong ones?
(b) Use the clock face to work out $2-3$ (finite 5)

31. Wycliff read $\frac{1}{4}$ of the pages of a book on Friday, $a \frac{1}{3}$ on Saturday and the 30 remaining pages on Sunday.

How many pages did wycliff read altogether?
32.(a) Plot points: $\mathrm{A}(-2,2), \mathrm{B}(1,3), \mathrm{C}(4,-2)$ and $\mathrm{D}(-2,2)$
(b) Join A to B, B to C, C to D and D to A. Name the figure formed
(c) Find the area of the polygon formed in square units.

END

GOD IS LOVE
